

VAG K+CAN COMMANDER 3.6 USER MANUAL

Tips:

Pls install the software on the computer with Windows XP system.

Pls close the Anti-virus software on your computer. Because the Anti-virus software may recognise it as a type of virus, it will clear off all the software on the CD.

Step 1:

Get the software from the cd, the software is no need to unzip, pls copy it to your computer.

Step 2:

Open the software on your computer, then install it as follow.

Step 3:

Connect cable with your computer, then can be used.
